

EDUCATION

University of Edinburgh , Edinburgh, United Kingdom <i>PhD Statistics</i> Supervisors: Dr. Ioannis Papastathopoulos, Prof. Gabriele C. Hegerl	Sep. 2022 –
King Abdullah University of Science and Technology , Thuwal, Saudi Arabia <i>Visiting PhD student</i> Supervisor: Prof. Raphaël Huser	Feb. 2024 – May 2024
McGill University , Montréal, Canada <i>MSc Mathematics and Statistics</i> Supervisor: Prof. Christian Genest	Sep. 2020 – June 2022
McGill University , Montréal, Canada <i>BSc Mathematics and Computer Science</i>	Sep. 2017 – May 2020

RESEARCH INTERESTS

- Extreme value theory, Multivariate and spatial statistics, Graphical modelling
- Probabilistic forecasting
- Environmental applications in the context of climate change.

PUBLICATIONS

- Papastathopoulos, I., De Monte, L., Campbell, R., and Rue, H. (2023) *Statistical inference for radially-stable generalized pareto distributions and return level-sets in geometric extremes*, [arXiv](#) preprint.
- Genest, C. and De Monte, L. (2021) *À la recherche de la Rondurie*, Accromath, Volume 16 p.24-29.

SOFTWARE

- R package [geometricExtremes](#): Creator and maintainer. Based on Papastathopoulos et al. (2023).

PRESENTATIONS AND POSTER SESSIONS

- CMStatistics (invited presentation): *Bayesian inference for radially-stable distributions*. Dec. 2023
- Séminaires de sciences de la décision HEC Montréal (invited presentation): *Multivariate extremes – A geometric Bayesian inference approach*. Sep. 2023
- 13th International Conference on Extreme Value Analysis (contributed poster): *Bayesian approach to geometric inference for multivariate extremes*. Jun. 2023
- BIRS-IMAG Modern Statistical and Machine Learning Approaches for High-Dimensional Compound Spatial Extremes (invited short presentation): *Geometric inference for Hüsler–Reiss random vectors*. May 2023

AWARDS

- School of Mathematics, University of Edinburgh** Sep. 2023
- Full PhD Studentship: £23,000 tuition and £16,000 stipend per year
- Mitacs Canada** Jan. 2022
- Funding for research on extreme value modeling in partnership with Hydro-Québec. \$30,000 (CAD)

WORK EXPERIENCE

- Hydro-Québec Research Institute (IREQ)** Jan. 2022 – Aug. 2022
- Research partnership to develop methods for the statistical post-treatment of weather forecasts, specifically of extreme meteorological events.
- DataHub, National Bank of Canada** May 2019 - Sept. 2020
- Development and automation of the official DataHub credit card data base.
- Statistical modeling of credit card use and behaviors.

RELEVANT EXPERIENCE

Teaching Assistantships (University of Edinburgh)

Tutoring workshops. Marking of assignments and examinations. List of courses:

- MATH11176 – Extended Statistical Programming	<i>Sep. 2023 – Dec. 2023</i>
- MATH11187 – Generalised Regression Models	<i>Sep. 2023 – Dec. 2023</i>
- MATH08066 – Probability	<i>Sep. 2023 – Dec. 2023</i>
- MATH10093 – Statistical Computing	<i>Jan. 2023 – May 2023</i>
- MATH08051 – Statistics	<i>Jan. 2023 – May 2023</i>

Teaching Assistantships (McGill University)

Preparation of tutorial sessions, office hours availabilities for course related questions. Marking of midterm and final exams, supervision of assignment marking. List of courses:

- MATH 324 – Statistics	<i>Jan. 2022 – May 2022</i>
- MATH 323 – Probability	<i>Sep. 2021 – Dec. 2021</i>
- MATH 203 – Principles of Statistics	<i>Jan. 2021 – May 2021</i>

Statistics Helpdesk (McGill University)

Sep. 2020 – Dec. 2021

Providing help to undergraduate students in Statistics and Probability. Theoretical and programming guidance for courses in the range MATH 2XX - 5XX.

Undergraduate Project Guidance (McGill University)

Guidance of three students towards the completion of an undergraduate project in extreme value theory.

- MATH 470	<i>Jan. 2022 – May 2022</i>
- MATH 410	<i>Jan. 2021 – May 2021 and Sep. 2021 – Dec. 2021</i>

LANGUAGES

Bilingual: French, English.
